ABOUT THE GEF CSO NETWORK

The Global Environment Facility Civil Society Organizations Network is an independent global alliance of civil society organizations working to address global environmental challenges across the GEF focal areas. It serves as the formal mechanism for structured civil society engagement with the Global Environment Facility (GEF), the largest multilateral funder of biodiversity and the financial mechanism for several multilateral environmental agreements.

This certificate was generated electronically and is valid without a signature.
If required, validity can be confirmed with membership@gefcsnetwork.org.
